

## **Equipment Manager/ Mechanic.**

Seeking an experienced golf course mechanic to manage and maintain our fleet of Golf course equipment. The Peninsula Golf and Country Club is an 18 hole, 850 acre golf community located near the Delaware beaches in Millsboro, DE. The club was established in 2006 and much of the primary equipment has replaced over the last 4 years, with a new fleet of fairway mowers coming for 2022. This position is vital to the success of the golf course maintenance team on a day- to- day basis. A successful candidate will be a self-starter, that is a team player and sees the big picture of the operation.

### **Must have experience with:**

- Gasoline / diesel engines/ small engines (2 stroke and 4)
- Electrical diagnostics
- Tractor repair / tractor implements
- Tire repair
- Strong preventative maintenance program
- Sprayer/ pump repair
- Record keeping
- Purchasing and ordering from local vendors

### **The Peninsula offers a competitive compensation package including:**

- Health/dental/vision insurance
- 401k
- PTO
- Golf privileges
- Uniforms
- Off season use of other club amenities
- Salary \$55-70k/ year
- Typical work week:
  - April – October 45 hrs. per week
  - November – March 35 hrs. per week
- Weekends only as needed, (a few big events per year or out of the ordinary circumstances)
- Tool allowance

Must own your own mechanics toolbox, specialty shop tools are purchased through the club.

This position is available as early as April 1. Our current mechanic of 12 years is retiring 7/4 but I would like there to be some overlap to learn the fleet and settle in. He is also flexible on that date, so he may go early if we are in good hands.

Please email resume and references to:

Kyle DeNuys – Golf Course Superintendent
